BlackRock Luxembourg is regulated by the CSSF under Chapter 15 of the Luxembourg law of 17 December 2010. BlackRock Luxembourg is regulated by the CSSF under Chapter 15 of the Luxembourg law of 17 December 2010. BlackRock Luxembourg as delegated its investment management function of the Target Fund to BlackRock Financial Management, Inc. ("BFM"). BFM is domiciled in the United States of America and regulated by the Securities and Exchange Commission, the United States of America. The Target Fund aims to maximise total return by investing at least 70% of its total assets in high yield fixed income transferable securities, including non-investment grade.

Although the Fund is not actively managed, the investments of the Fund will be rebalanced from time to time to meet Unit sales and Unit redemption transactions. This is to enable the proper and efficient management of the Fund.

This Fund is a feeder fund that invests at least 95% of NAV in the Target Fund. The risk management strategies and techniques employed will be at the Target Fund level.

When appropriate for a Class, the Manager may trade in financial derivatives, which include but is not limited to forwards and swaps, for the purpose of hedging the currency risk exposure (if any) of a Class.

Unit Holders are advised to read and understand the Target Fund's investment objective and strategy disclosed in the Disclosure Documents.

| | Any distribution made, will be out of the Fund's realised gain or realised income. | | |
| Distribution Mode | Distributions, if any, after deduction of taxation and expenses (i.e. net distributions) will be reinvested to purchase additional Units based on the NAV per Unit as at the first Business Day when Units are quoted ex-entitlement. | | KEY RISKS | | |
| | KEY RISKS OF THE FUND | | |
| Management risk | As the Fund invests at least 95% of NAV in the Target Fund, it is subject to the management risk of the management compan and investment managers of the Target Fund. Poor management of the Target Fund by the Target Fund's management company will jeopardise the investments of the Fund in the Target Fund and in turn, the Unit Holders' investments through th risk of reduced returns and in some cases loss of capital invested in the Fund. | | |
| Liquidity risk | The Fund is also exposed to liquidity risk as there is no secondary market for the Target Fund. Investments in the Target Fund can only be liquidated with the manager of the Target Fund or its appointed agents. | | |
| Country risk As the Target Fund is domiciled in Luxembourg, the Target Fund is subject to country risk. The Fund's investments in Target Fund may be adversely affected by political instability as well as exchange controls, changes in taxation, fore investment policies, restrictions on repatriation of investments and other restrictions and controls which may be imposed by relevant authorities in Luxembourg. This in turn may cause the NAV to fall. | | | |
| Currency risk (of RM Class only) | | | |

| benefit of any upside of currency movement is limited as the primary interest is to protect the value of the portfolio. As the liabilities of the Fund are shared by both the RM Class and the USD Class, i.e. the liabilities of the RM Class and the USD Class are not segregated. Therefore, the liabilities of any hedging activity of the RM Class may also impact the USD Class. In such a situation, the investors of the USD Class are also subject to the derivatives risks of hedging activities for the RM Class. At Target Fund level, the Target Fund is also subject to currency risk as the Target Fund may invest in assets denominated in currencies other than its base currency of USD and this is further elaborated under section 6.3 of the Disclosure Documents. | | | |

VALUATIONS AND EXITING FROM THIS INVESTMENT

VALUATION OF ASSETS

The Fund must be valued at least once every Business Day. However, the Target Fund in which the Fund invests in performs its valuation for its relevant business day on the day following its relevant business day. Accordingly, the valuation of the Fund for the relevant Business Day will be conducted before 5.00 p.m. on the following day in which the Manager is open for business, when the valuation of the Target Fund would have been obtained from BlackRock Luxembourg.

As such, the daily price of the Fund for a particular Business Day will not be published in the media on the next day but will instead be published the next following day (i.e. price will be two (2) days old). This will be specifically indicated in the media.

Investors may however obtain the most current computed price by contacting the Manager directly or visiting our website, http://www.rhbgroup.com

EXITING FROM THIS INVESTMENT

The repurchase price shall be the NAV per Unit of the respective Class as at the next valuation point of the relevant Business Day ("forward pricing") after the repurchase request is received by the Manager.

A repurchase charge may be computed separately based on the withdrawal amount/repurchase amount. The minimum redemption Units for both the RM Class and the USD Class is 1,000 Units or such other lower quantity as the Manager may from time to time decide and for any partial redemption, the balance of Units after the redemption must be 1,000 Units or such other quantity as the Manager may from time to time decide (the "minimum holding at all times").

Units can be redeemed by forwarding the completed form of request to repurchase to the Manager's registered/principal office or any of its branches, or to any of its authorized sales agents or participating CUTAs or IUTAs on any day other than Saturdays, Sundays and public holidays before their respective cut-off times.

The NAV is determined by deducting the value of all the Fund's liabilities from the value of all the Fund's assets, at the valuation point. The NAV per Unit is determined when the NAV is divided by the total number of Units in circulation at that valuation point.

Redemption monies in the base currency of the Fund are to be paid within ten (10) business days[#] after receipt by the Manager of the request to repurchase and are payable to the Unit Holders' bank account.

However, the time taken to pay the redemption proceeds to investors may be extended or delayed if the Target Fund is suspended^{##} and/or the redemption from the Target Fund is deferred^{##}. Should this occur, the Manager will pay the redemption proceeds to investors within ten (10) business days[#] after receipt by the Manager of the redemption proceeds from the management company of the Target Fund.

"These are the working days when the Manager is open for business.

^{##}For information concerning suspension or deferment of redemption by the Target Fund, see "Suspension and deferrals of shares of the Target Fund" and "Deferred dealings of the shares of the Target Fund imposed by BlackRock Global Funds" in the Disclosure Documents.
